

DEVEX 2007

4th European production
and development conference
on subsurface techniques for
maximising recovery

Tuesday 15 & Wednesday 16 May 2007
Aberdeen Exhibition and Conference Centre

DEVEX 2007 is a joint AFES, SPE, PESGB and DTI
conference and incorporates the DTI IOR Seminar

CALL FOR ABSTRACTS

Abstracts for presentations or posters are sought now for DEVEX 2007 on production and development techniques that are designed to maximise the recovery of hydrocarbons.

Presentations (which need not be formal papers) on innovations or case histories in geoscience, petrophysics, reservoir/petroleum engineering and novel drilling/completion techniques in the following areas are invited:

- HP/HT fields
- Fallow discoveries, unlocking infrastructure
- Heavy oil development
- Brownfields
- Greenfields
- Field reactivations
- New technology
- Improved oil recovery
- Use of geophysical techniques to maximise recovery
- Near field exploration and satellite development
- Gas renaissance
- Novel drilling and completion techniques
- Reservoir modelling
- Chalk

Deadline for submission 31 January 2007

*A joint AFES / SPE Aberdeen
Section / PESGB / DTI conference*

PES  **GB** **dti**

Send abstracts to DEVEX Event Managers:

Hulse Rodger & Co, 45 Grove Crescent, Aberdeen AB16 5DU
